COUNT YOURSELF IN

The 2011 Census and the new National Household Survey (NHS) will take place starting in May 2011.

Census information is important for all communities and is vital for planning services such as schools, daycare, police services and fire protection. The NHS is needed to plan family services, housing, roads and public transportation, and skills training for employment. These surveys are an essential source of information about Canada and the people who live here, and they must be complete and accurate. It is therefore imperative that everyone complete and return their questionnaires.

To find census data directly related to your community visit www.census2011.gc.ca and click on latest census data. In the community profiles section you will find suggested geographies or you may also enter your postal code or place name for data more specific to your own community.
